

ACCESS TRADING  
AND MAINTENANCE W.L.L

PRECISION MAINTENANCE, POWERING YOUR PROGRESS

# Introduction

Access stands as a dynamic and pioneering firm specializing in civil construction, steel structure fabrication and erection, industrial blasting and painting, heat transfer engineering, heavy equipment rental, and general trading. With over two decades of industry leadership, we are driven by cutting-edge technology and an unwavering commitment to excellence.

Our relentless pursuit of operational efficiency and management speed is evident in our stringent cost control, enhanced quality measures, and strict adherence to delivery timelines. Our team of highly experienced engineers and skilled workforce brings unparalleled expertise and an added layer of service to our clients. At Access Engineering, client satisfaction is our foremost priority, and we pride ourselves on our reliability, professionalism, and unwavering quality standards.

Holding multiple certifications and employing the latest technological advancements, Access Engineering offers superior technical engineering services across all disciplines. We assist our clients in developing their businesses in a safe, innovative, and cost-effective manner.

Since our establishment, both government agencies and private entities have consistently relied on Access for our outstanding services. We are committed to adapting to changing times with effective strategies, ensuring the continued momentum of our progress in the industry.

Our rich history of excellent client service and our expertise in executing projects with a highly skilled and professional workforce enable Access Engineering to attain and sustain industry leadership.

# Vision

To drive regional development by ensuring a high-quality, safe working environment and advocating for sustainability in economic, environmental, and social dimensions.

# Mission

Your paragraph Our mission is to continuously enhance our services through quality practices, ethical business conduct, and active employee engagement, ensuring satisfaction for both customers and employees.

# Quality Policy

Our commitment is to uphold an effective Quality Management System (QMS) to meet the standards of BS EN ISO 9001:2008. We strive to achieve:

- Continual improvement in all Access activities
- On-time delivery
- Full customer satisfaction through the implementation of an effective QMS

# Our Purpose

Embracing  
sustainability

Safety For All

Respecting Mother  
Nature

Empowering People  
Lives

# Our Safety Policy

Identifying and assessing health risks: We meticulously evaluate potential health risks to employees, contractors, and the public associated with our operations.

Implementing protective measures: We implement tailored programs and protective measures to mitigate health risks, ensuring appropriate monitoring of affected employees.

Transparent communication: We communicate health risk knowledge gained from our programs and studies to affected individuals, organizations, and the scientific community in a clear and reasonable manner.

Ensuring employee fitness: We assess the medical fitness of employees upon employment and thereafter, ensuring they can work safely.

Providing medical services: We offer or facilitate medical services for treating occupational illnesses, injuries, and emergencies.

Compliance and advocacy: We adhere to all applicable laws and regulations while advocating for responsible standards and collaborating with government agencies for their development.

Research and innovation: We conduct and support research to enhance understanding of the health effects of our operations, driving continuous improvement.

Ongoing evaluation: We regularly review and evaluate our operations to gauge progress and foster compliance with our health and safety policy.

## The World by 2040

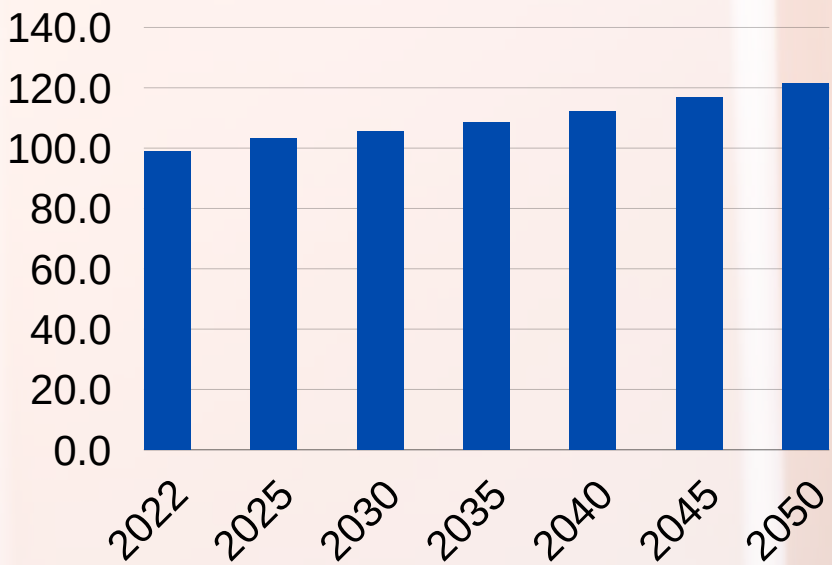

By 2040, emissions will have drastically reduced due to widespread adoption of renewable energy sources and stringent emissions regulations. Renewable energy, including solar, wind, and hydroelectric power, will dominate the energy landscape, significantly reducing reliance on fossil fuels. Energy efficiency measures in transportation, buildings, and industries will further contribute to emission reductions. Sustainable practices will be integral to daily life, from green urban planning to eco-friendly consumer choices. Overall, by 2040, the world will have made significant strides towards a more sustainable future, with lower emissions, cleaner energy, and a heightened focus on environmental suitability.

## Sustainability at Access

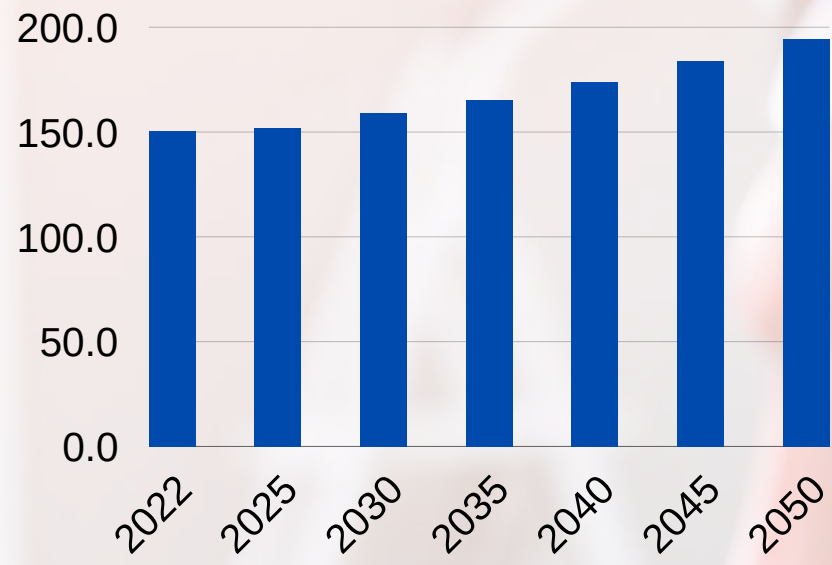

At Access, sustainability is the cornerstone of our identity, integral to every operation. We adopt cutting-edge technologies to minimize our carbon footprint and invest in renewable energy for a sustainable future. Our commitment extends to fostering environmental awareness and partnerships within local communities, driving collective action towards a greener world. Innovation propels our pursuit of environmental excellence, as we adhere to rigorous standards, ensuring every business aspect aligns with our sustainability principles. This dedication is not just a checkbox but a guiding ethos influencing all our decisions.

# Global Fossil Fuel Market Outlook 2050

World Liquid Fuel Consumption in Million Barrels Per Day

World Natural Gas Consumption in Trillion Cubic Feet

According to the International Energy Outlook 2022, the outlook for fossil fuel consumption in 2050 suggests a significant decline compared to present trends. Projections indicate that global efforts to combat climate change will drive a substantial shift towards cleaner energy sources. Renewable energy technologies are expected to witness remarkable advancements, making them increasingly competitive and accessible worldwide. Solar, wind, and hydroelectric power are anticipated to become the primary sources of energy, gradually displacing coal, oil, and natural gas. Stringent regulations and policies aimed at reducing greenhouse gas emissions are likely to accelerate this transition. Moreover, improvements in energy efficiency across industries, transportation, and residential sectors will further diminish the demand for fossil fuels. While fossil fuels may still play a role in certain regions or industries, the overall trajectory points towards a future where renewable energy predominates, fostering a more sustainable and environmentally responsible global energy system by 2050.

# Our Services

- Abrasive Blasting and Painting
- Structural Steel Fabrication and Erection
- Heat Transfer engineering
- Automobile Services
- Heavy Equipment Rental
- Trading

# Blasting & Coating

Access has an industrial blasting and coating yard covering an area of 12000 sqm with efficient technocrats, QA/QC inspectors, well experienced supervisors, certified blasters and spray painters

ALL QAQC procedures are strictly adhered to with the intension of serving the ever expanding oil & gas industry in Qatar

Access also offers quality services in:

1. Fire proof coating
2. Anti corrosion Coating
3. Multi-layer coating
4. Tape-wrapping system for buried pipelines
5. Floor-coating
6. Water proofing
7. High pressure water jetting
8. Inspection services
9. Internal / external blasting and painting of underground pipeline

heavy machinery fleet

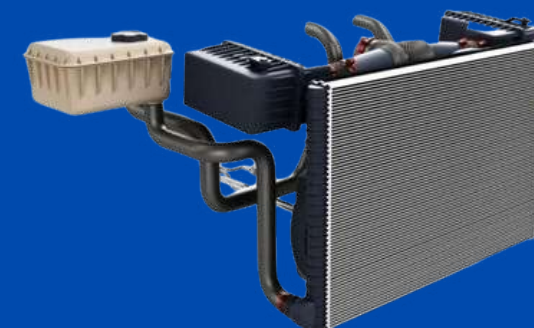

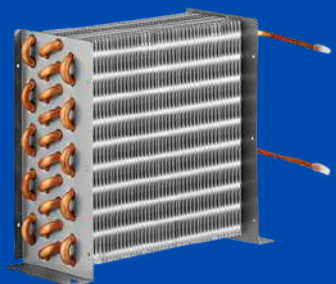

# Heat Transfer Engineering

Access Engineering has been providing a comprehensive range of heat transfer engineering solutions for the Qatar market for the past 25 years, Access Engineering has been providing a comprehensive range of heat transfer engineering solutions for the Qatar market for the past 25 years, delivering expertise and quality solutions across various industries, ensuring efficient thermal management and enhanced system performance

All QA/QC protocols are meticulously adhered to, ensuring the utmost precision in fabrication and exceptional service standards.

Access engineering services include the following

- Radiator servicing and repairing
- Oil coolers servicing and repairing
- Air cooler servicing and repairing
- Copper Radiator fabrication ( MARK IV & UNIPAC)
- Radiator Brass tank fabrication
- Radiator Steel tank fabrication
- Radiator Aluminum tank fabrication
- Oil cooler Fabrication
- Condenser Fabrication

# Automobile Services

Access Engineering has been providing a comprehensive range of automobile services and spare parts for the Qatar market for the past 25 years.

These services include

- Brake Relining
- Pressure Plate Setting
- Clutch Relining
- Drum Facing
- Flywheel Facing
- Bush Fitting
- Kingpin Reconditioning
- Diesel Tank Reconditioning
- Radiator Sales

# Steel Fabrication

Access Engineering offers comprehensive services for Industrial steel Structure fabrication, detailed design and engineering, stress analysis, painting and erection in accordance with the international codes and practices in their well equipped yard covering an area of 10000 sqm.

All QAQC procedures are strictly followed incorporating phase wise dimensional checking, non destructive testing and Third Party inspections to achieve highest degree of fabrication standards. Qualified welders, certified riggers, fitters are deputed for site installation works and all quality assurance procedures are maintained for materials and consumables used.

Access also offers:

- Mechanical work which includes of supply, fabrication & installation Steel structures and modification works.
- Supply, Fabrication & Installation of Stainless steel Structures.
- Fabrication of Pipe supports, tanks, silos, vessels and pipeline works

# Equipment Rental

Access Equipment Rental serves as a vital and trusted partner for customers in the construction, industrial, petrochemical, government, and manufacturing Business sectors across Qatar, by providing timely rentals, maintenance and service. Access helps our customers to do their jobs more efficiently and more profitably.

Our ongoing development and phenomenal growth in the equipment rental industry is a proof of the company's commitment to offering customers a comprehensive range of products which includes the following

- Fork Lift 10 tons
- Fork Lift 5 ton
- Fork Lift 3 ton
- Flat Bed Trailer
- Boom Trucks
- Mobile Cranes
- Telehandlers
- Air Compressors
- Welding Generators
- Diesel Generators

# Trading Division

Access trading division boasts a vast range of products includes.

- Structural steel
- Building materials
- Power tools and hand tools
- Fasteners
- Welding tools and accessories
- Oil fields equipments
- Lifting equipments and accessories
- Safety equipments and accessories
- Road safety equipments
- Industrial and garage equipments
- Electrical and plumbing items
- Paint and painting equipments
- Compressor and generators

# Medical

Access Medical stands as the foremost equipment provider in the Qatar market, boasting a remarkable 14-year legacy. Throughout this time, the company has consistently delivered top-notch medical equipment and services, solidifying its reputation as a trusted partner for numerous leading healthcare providers. With a focus on excellence, Access Medical has successfully supplied and serviced state-of-the-art medical equipment, meeting the diverse needs of some of the largest healthcare institutions in the region. The company's unwavering commitment to quality and reliability has positioned it as a pivotal player in the healthcare sector, dedicated to advancing the standards of medical care in Qatar.

Access medical offers services as follows

- Medical Equipment sales and commissioning
- Medical Equipment Maintenance contracts
- Medical Consumables sales

# Our People

At Access, our people are the heart of our organization, and we deeply value their dedication and contribution. We prioritize creating a nurturing and supportive environment where employees feel appreciated and empowered to thrive.

Their commitment over the past decades has been instrumental in our success, and we're profoundly grateful for their unwavering loyalty.

Each individual's unique talents and efforts enrich our company culture and drive our continued growth. As we celebrate this milestone together, we extend our heartfelt thanks to our employees for their enduring commitment and invaluable service to Access.

## Training and Development
