

THUSHAR RAMDAS MENON

SOFTWARE DEVELOPER

KMEA College of Arts and Science BCA Alumnus.

Thushar Ramdas Menon ,an alumns,who studied BCA Programme in KMEA College of Arts and Science, he was very active in academic and Co-academic activities conducted by the Department of BCA.His performance in M.G University examinations were also very appreciable. He had got placed as Software Engineer in Trizent Technologies while he was undergoing his sixth semester classes in KMEA College of Arts and Science.It is to be particularly noted that he was the Resource Person for a programme conducted in KMEA College of Arts and Science ,viz.ONE DAY WORKSHOP ON PYTHON, organized by Dept.of BCA in association with IQAC.He also acted as Editor of News Letter “TECH TIDBITS” published by the Department of BCA.

His words about the Journey in KMEA College of arts and science is

My hope was replenished through my brief time with KMEA. Here i learnt once again how good and honest hard work always comes with rewarding promises.

As i stepped into my second chance at life, words can't describe how the accommodating nature of KMEA and its faculty helped me build brick by brick to what I have now. The guidance and support I received through the faculty has helped me a lot and to this day and beyond forms the core of my attitude towards Life. As i love on I try my best on a daily basis to honour the enriching and nurturing framework that KMEA is.
